

Dear friends, relatives, fellow countrymen,

On 11 January, we launched a campaign to support the Central Public Library of Veria, our library, which makes us proud all over the world for years, through the platform support.libver.gr

Our goal is to raise **100.000€**, an amount that will allow us to complete the renovation of the second floor, so that our library can become one of the most modern libraries in Europe.

When we started, we considered that the goal was ambitious but - and while three weeks still remain for its completion - the donations we have collected, have already surpassed **53%** and allow us to be optimistic that we will succeed!

The incoming messages made us understand that you are again by our side. You also have taken action so that the people learn about our effort, you have sent us your contribution, you share our love and pride for the Library.

For all of you who want to send your contribution, we decided to create a support page on Indiegogo, so that you can make a pledge in a much easier way, without any costs of remittance.

The page is: <https://goo.gl/gliGxa> and your help is important for us.

Forward it to your friends and relatives living abroad. Share it with whoever you think may be interested.

We are near our goal and in the three remaining weeks, we will achieve it!

Together we will turn on the lights!
